Dr. Romine stated for the record that the Board returned to open session prior to discussing the following cases.

A. John Campa, M.D. Mr. Khalsa presented case #2002-003, summarizing that Dr. Campa was convicted of multiple crimes of health care fraud and is currently in prison. Dr. Kankanala SECONDED the motion. YES: La Farge, Glidden, Kankanala, Gutierrez, Pai, and Romine. RECUSED: Kellahin and Call.

B. & C. There is not a pattern of practice and they have changed the process so it could not happen again. The proposed Order for Dr. Goldman suspends his license from June 27, 2002 through July 6, 2002. The proposed Order for Dr. Garcia suspends his license from June 14, 2002 through June 18, 2002. Dr. Kankanala MOVED to accept the Order for Dr. Goldman and Dr. Garcia as presented. The Board also requested staff obtain a report from the Board of Pharmacy monitoring their prescribing practices for the next three years.

6. NEW BUSINESS

A. CRNA Opt Out Recommendation. Dr. Romine asked John Anderson, representing the New Mexico Medical Society, to give an overview of his understanding of the Opt-Out issue. He explained that CMS, the federal agency formerly known as HCFA, allows states to “opt-out” of mandatory physician supervision of CRNAs, with the approval of the Governor after getting recommendations from BME and BON. Hank Beckeroff, president of NM Association of Nurse Anesthetists, indicated their association did not initiate this request that the Board consider making a recommendation to the Governor. It was determined that the issue was the result of a request from the Hospital Association. Dan Weeks, representing the New Mexico Hospitals & Health Systems Association, expressed their support for “opt-out,” primarily because of reimbursement issues and particularly in rural areas. John Wills, MD, an anesthesiologist from UNM, indicated there are 3 issues: access, quality of care, and cost. Further he understands that access is not the issue, the problem is finding surgeons: cost is not the issue for us, but he believes the primary issue is the quality of care, particularly perioperative care. After further discussion, Dr. Romine stated that since the Board has not been requested to give a recommendation the discussion would be terminated. However, he expressed his appreciation to the audience for the information presented which will be helpful if we are requested to make a recommendation to the Governor in the future.

B. CRNA Formulary. Trudy DiLeo, representing the Board of Nursing and the CRNAs,
stated BON accepted the formulary as agreed upon at the previous meeting and all CRNAs have been informed of the decision. Any requests for exceptions to the agreed upon formulary are to be referred to BME for consideration.

C. HB170 Psychologist Prescriptive Authority. Following the presentation of an opening statement by Dr. Romine, there was a lengthy discussion about the process that would be used to implement HB170. Ed Snyder, representing the Psychology Board, stated that they envision a joint working committee with participants from each board to develop a process that will be used. Dr. La Farge, Dr. Call, Ms. Kellahin, and Ms. Glidden offered to participate on the working committee. Dr. Romine has discussed the issue with Dean Roth and selected individuals at the School of Medicine who have offered to serve on a committee to review the technical issues related to training and examination. The Board reviewed resumes and voted on the following individuals to be part of the technical committee: Mark Holdsworth, PharmD, Nancy Morrison, MD, Albert Vogel, MD, and Robert Bailey, MD. Ms. Kinney indicated the Board has contracted with Ms. Lynne Schmolke to provide administrative support for the committees working on this project.

The Board recessed at 4:50 p.m.

Dr. Romine called the meeting back to order on May 16, 2002 at 8:17 a.m. with all members present.

7. NM MONITORED TREATMENT PROGRAM.

Dr. Swoboda, Mary Meisum, and Jon Thayer were present to discuss the status of mandatory participants.

Executive Session: MOTION was made by Dr. La Farge and seconded by Dr. Call to go into executive session to discuss licensing matters. YES: La Farge, Glidden, Kellahin, Kankanala, Gutierrez, Pai, Call, and Romine. MOTION CARRIED. The Board returned to open session. Dr. Romine stated for the record that the matters discussed in closed session were limited only to those specified in the motion for closure.

Mr. Thayer distributed current financial information and indicated they are moving into new space about June 7th. The phone numbers will stay the same, as they are just moving up the street to 11930 Menaul, Suite 113. The organization is evaluating their business processes, including the evaluation process. The financial outlook continues to improve, but the move will be expensive.

There has been one relapse; the physician is in treatment at Springbrook. There was a discussion about whether all relapses are reported to the Board. Dr. Swoboda indicated that they do not believe a “therapeutic relapse,” where the individual is still following recommendations of program, should be reported. However when it is a multiple relapser, there is potential patient harm, or when the individual has failed to self-report to the Board when recommended by MTP, these individuals are reported to the Board. The Board requested a blank copy of the contract with voluntary participants.

There was further discussion about how relapses in voluntary participants are handled. Dr. Romine asked Ms. Thalley and Mr. Khalsa to review the voluntary contract and report at the next meeting. It was suggested we might need to put an actual number on relapses before they are reported or maybe all relapses should be referred through complaint committees.

B. Assistant Attorney General. Ms. Thalley reported on three cases currently in appellate Courts, including Samir Roy who filed a petition Writ of Certiorari in the Court of Appeals, which he lost, upholding decision of the Board. He has now filled in the Supreme Court and they have extended time to consider until May. This is his last option.

Cortelyou appeal is still pending in Court of Appeals. She filed in August 2001 but it is not on the calendar for decision yet.

Gutman case is before District Court. Appeal has been filed and we have a motion to strike the new material in the appeal. In April the District Court upheld our motion to strike portions of the appeal and denied motion to modify the record. Case is pending a hearing on the merits of the case.

Hearing on Quarmby was held on April 29th and we are waiting the Hearing Officers report.

The Board recessed for lunch and reconvened.

C. President. Dr. Romine reported on the Annual Federation of State Medical Boards meeting in April. Dr. La Farge, MD, Dr. Gutierrez, MD, Dan Otero, PA, Bill Wahlert, PA, and Kirsten Thomsen, PA, also attended the meeting. Issues included continuing competency (how and how often it should be measured); medical errors and patient safety; license portability and the initiation of fast track licensing systems; complementary and alternative medicine; and guidelines for the regulation of outpatient surgery.

The House of Delegates accepted Model guidelines including the Use of Complementary Medicine, Appropriate Use of the Internet, Office Treatment of Opioid Addiction, and Outpatient Surgery. Dr. Gutierrez indicated he felt medical errors was the primary focus of the meeting.

D. Secretary-Treasurer. Dr La Farge reported on his participation in the GAMA Task Force on Physician Retention and shared recent census information.

Joe Montoya reported on the financial status. There was general sentiment that they liked the report format. He stated the Board has about $1.5 million in cash balance and Ms. Kinney indicated we are committed to reducing the cash balance. Dr. Kankanala **MOVED** to approve a Contract for Dr. La Farge to serve as Secretary Treasurer for next fiscal year. Dr. Pai **SECONDED** the motion, which **PASSED UNANIMOUSLY**. The was discussion about the contract for MTP and Dr. Gutierrez shared the problems of several years ago when the Board tried to handle it as a sole-source and did not go out to bid. Ms. Kinney explained it would be impossible to go to bid prior to the expiration of the existing contract on June 30. There was further discussion about the availability of other contractors to provide this service. Dr. Gutierrez **MOVED** to continue the contract with MTP for another year and recommended that staff study the availability of other sources of this service. Dr. Romine **SECONDED** the motion, which **PASSED UNANIMOUSLY**.

E. Physician Assistant Advisory Committee. Mr. Otero stated the PAAC met with Thomas Engel who is applying for reinstatement and they recommend approval of his request. F. Executive Director. Ms. Kinney reported on continuing problems with the new database. The recent rule changes, as they affect the application process, have not been implemented yet as the forms are still being designed. They should be complete in the next few weeks. She further discussed paperless meetings and that the laptop computers should be distributed to members at the August meeting. There have been some changes to Orientation, which we hope will expedite the time spend waiting in line. Handout information is being provided on CD, unless specifically requested in hardcopy.

Ms. Kinney asked the Board’s approval to provide copies of disciplinary actions not related to substance abuse on the website. She has discussed this issue with Mr. Marshall who was not opposed to making the public documents on disciplinary actions more accessible. There was extensive discussion about the public nature of the information and how it would be accessed. The plan is to have a link to any public documents on the individual physician data form, i.e., everyone with action would not be listed in one place, but will only be linked to each specific physician. Ms. Kellahin moved to provide a link to individual all disciplinary information on the website for a period of five years from the date of action. The motion died for lack of a second. After further discussion Ms Kellahin moved to provide all public records related to disciplinary action on the website. Ms. Glidden seconded the motion, which passed with La Farge, Glidden, Kellahin, Pai, Call, and Romine voting in favor and Gutierrez and Kankanala voting against the motion.

Ms. Kinney also brought up the issue of complaint closure letters and the problems with errors when we try and get them out in time for signature at the meeting. The consensus was to use a signature stamp and get approval of the letters before they go out.

12. OLD BUSINESS
A. Pain Management Task Force, SM22. Dr. La Farge summarized the status of the SM22 Task Force activities. The entire task force meets in June to integrate the different subcommittee recommendations. Dr. La Farge briefly reviewed his concerns on the recent report from the regulatory subcommittee. Ms Glidden spoke to the amount of time required for the process and the fact the deadline for recommendations was May 15. Mr. Khalsa gave examples of some of the proposed legislative recommendations, which include that the Board not be allowed to investigate complaints of over prescribing and that the Board be required to pay attorney fees if the respondent prevails in a disciplinary hearing. The subcommittee members have little understanding of how the Board handles complaints and the amount of peer review inherent in our complaint review. The perception seems to be that under treatment of pain is primarily in response to fear of repercussions by the Board. Therefore if the Board stops taking actions for over prescribing the problem of under prescribing will be resolved.

Consistent with the plan approved at the last meeting, Dr. Romine asked for volunteers to serve on the committee to review proposed guidelines. This committee will proposed acceptable guidelines for consideration at a public hearing at the November meeting the Board will adopt the Pain Management Guidelines, incorporating appropriate revisions, as a new rule. Dr. Swoboda, Frank Spring, Mr. Khalsa, Dr. La Farge, Mr. Wahlert and Ms. Glidden were selected to serve on the Committee. In addition, the Board of Pharmacy will be requested to send a representative.

B. Application Requirements. Dr. La Farge discussed various issues that could be considered during the strategic planning session or in the future that would make the application process less burdensome for applicants. Another issue is the possibility of resident applications being approved when there are actions in other states – should they also be required to go to a complaint committee? The general consensus was that they should be handled the same as other license applications. Resident application questions need to be the same as the general application questions.

C. Requirement for Original Transcripts. Ms. Kinney asked the Board to clarify the policy on original transcripts. It is her understanding that these must be provided directly from the source and that the only option, when they are not available, is Board approval of requests to accept original documents provided by the applicant. Following discussion the Board agreed to consider Dr. La Farge’s review of the documents, but the decision will be made at a Board meeting and no interim license will be issued. She also asked for blanket approval for the physicians attending this orientation who have been
