Prescription Monitoring Program Requirements

Reminder:

Don't forget--Pursuant to NMAC 16.10.14.10 all practitioners who hold a federal DEA registration and a NM CSR must participate in PMP inquiry!! Prior to initial prescription of Schedule II, III and IV drugs for a period longer than 10 days, a patient PMP for the preceding 12 months must be obtained. The PMP must be obtained *at least* every 6 months thereafter.

If you hold a DEA and NM registration but rarely prescribe controlled substances, check your practitioner PMP periodically to ensure no unauthorized activity has occurred!

For practitioners who have staff perform PMP inquiries – each registered practitioner is allowed to register one delegate. Please make sure your delegate has properly registered.

2015 MD, Telemedicine and Resident License Renewals:

The online renewal for licenses that expire on July 1, 2015 is now available on the Board's website. You will need your license number and registration code that was mailed to you in March to renew. You will not be mailed a paper renewal unless you specifically request one by mail, fax or email. Please allow for at least 30 to 45 minutes to complete the entire renewal.

As part of the license renewal process as stipulated in The Health Care Work Force Data Collection, Analysis and Policy Act, NMSA 1978, Chapter 24 Article 14C, you are REQUIRED to complete the survey that is part of the renewal. The purpose of the survey is to analyze health care supply and distribution in New Mexico.
