10. REPORTS:

Medical Director:

Dr. La Farge updated the Board on the outcome of the meeting of the Interim Legislative Health and Human Services committee on November 7, 2013. He and Dan Rubin had attended, and the "Advanced Practice Chiropractors" (Perlstein and Jones) again presented their previous plan to act as Primary Health Care practitioners and to prescribe for and treat patients with a virtually unlimited formulary of drugs. Their statements about the equivalency of the first two years of Chiropractic training being equivalent to that of MD and DO schools, and about the validity of 90 additional hours of training being sufficient to meet the educational and training needs for prescribing the expanded formulary were met with significant criticism from several members of the Legislative committee, including Representative Terry McMillan, MD (Dona Ana). He, and several others, pointed out that 90 hours of education and training are inadequate (Dr. La Farge commented that the prescribing Psychologists had require 930 hours for prescribing just the psychotropic drugs), and that the first two years of medical and chiropractic schools are not equivalent; further, medical schools are Accredited by the AMA Liaison Committee on Medical Education (LCME) and the American Association of Medical Colleges. Drs. Perlstein and Jones were uncertain about accreditation of the Chiropractic schools, none of which currently have training in pharmacology equivalent to medical school or to what the Advanced Practice Chiropractors wish to prescribe. In short, the Legislative Committee was not encouraging in its reception of their proposal.

Ms. Hart then added that the Medical Board under current law must review and approve the Chiropractic school and the formulary that the Advanced Practice Chiropractors would be authorized to prescribe. The school originally designated no longer exists, and much of the formulary proposed has been disapproved by the Medical and Pharmacology Boards. Ms. Hart added that the proposed formulary bears no resemblance to what is commonly prescribed by primary care practitioners.

Mr. Rubin then added that Medical Marijuana was another topic at the Legislative meeting. He stated that there was a proposal presented to add PTSD (Post-Traumatic Stress Disorder) to the list of qualifying statutory conditions. Dr. Jenkusky informed the Board that at the last meeting of the American Psychiatric Association the Board of Trustees approved a policy statement saying that there is no justifiable, scientific reason for the use of any medical marijuana. He further stated that there is no research or evidence that supports its use for PTSD, however there is contrary, solid evidence that it may cause psychotic episodes. Ms. Hart concluded by stating that the legislation is egregious in this regard, and that she hopes that it will be defeated.

Board Attorney:

Sondra Frank, Board Attorney stated that the lease for the office space at 2055 South Pacheco is being re-negotiated and that it is going very well. She is working on negotiating a lower rate and also acquiring the space previously vacated by the NM Commission for the Deaf. The goal in acquiring the extra space is so that the Board can retain our records as we can no longer take them to the State Records and Archives Department.

Licensing Manager:

Amanda Quintana requested that the Board begin accepting FCVS profiles for Physician Assistant applications. The FCVS includes core credentials, which are PA Education, Post Graduate Training, if applicable and NCCPA certification. **MOTION** was made by Dr. Weiner to accept the FCVS profiles for Physician Assistants. **SECONDED** by Dr. Komadina. **YES:** Dr. Weiner; Mr. Wallace; Dr. Miller; Ms. Anderson; Dr. Komadina; Dr. Kankanala; Dr. Beaudette; Mr. Bourbon; Dr. Jenkusky. **MOTION CARRIED.**

CFO/HR Manager:

Budget / Revenue Status - Gayle Mascarenas, HR Manager/CFO reported that for the first quarter of Fiscal Year 14, the Board has expended \$429,500 (25%) and collected \$275,000 (16%). The current cash balance is approximately \$2,000,000. The current year expenditures for administrative hearings/litigation are approximately \$6,000 with \$20,000 committed. Ms. Mascarenas stated that based on the current balance a budget adjustment request will need to be done in between categories in FY14.

Public Information Officer:

Mr. Rubin reported that there were 4 pending requests for public documents, 3 of which have already been addressed and Ms. Frank is working on the last one.

Investigations:

Ms. Dieterich informed the Board that Leann Lovato has left her position and transferred to another agency. Amanda Chavez has moved into the advanced investigator position. The vacant investigator position will be advertised.

Administrative Prosecutor:

Prosecution Status Report – Mr. Rubin reported on the status of pending administrative prosecution cases and provided an update.

George Schwartz, MD – Lawsuit - The case is currently in the discovery phase.

Richard Rubin, PA – Lawsuit - The case is currently dismissed in Federal District Court.

Nicholas Nardacci, MD – Appeal - An appeal has been filed in District Court and a motion to stay is currently pending.

Pawan Jain, MD – Appeal - A hearing and oral arguments on the merits of the case is set for December 20, 2013 in Las Cruces.

11. OLD BUSINESS

FSMB Compact License – Ms. Hart summarized the FSMB's compact license effort and the Board's current involvement. FSMB hired The National Council of State Governments, a group that creates model legislation for states to enact. They recommended one national compact, instead of state-to-state or regional compacts. She stated that the idea was neither efficient nor effective. The group presented eight to nine principles, however, the principals left many questions unanswered. The idea is

that a physician would have to have a "squeaky clean" record to qualify for a compact license. This has been referred to as a "platinum" license. Ms. Hart further stated that she does not believe that a compact license is necessary at all, and that the Board's licensing team has done a great job already in expediting licensure. Mr. Bourbon stated that he was concerned because the presentation by the FSMB was essentially a non-medical model and that there may be a difference of opinion among the states.

Scope of Practice Discussion - Ms. Frank stated to the Board that there has been discussion regarding physicians practicing acupuncture. She informed the Board that she would do her best to have her interpretation of this issue ready for the next Board meeting.

Physician Assistant Legislation – PAs as primary care providers – Mr. Bourbon stated that there is a tentative proposal for legislation to remove the administrative burden of medical supervision. Supporters feel that this will enhance the ability of PAs to not only practice more autonomously in rural areas but also remove the necessity of having to go through the burden of re-registering their supervising physicians which happens very frequently for a lot of PAs. There are ongoing talks with the Academy of Physician Assistants to address the shortage of primary care PAs in New Mexico as well as to revise the PA Practice Act.

Senator Udall's Legislation – Dr. Jenkusky informed the Board that Senator Udall would like to put forth legislation in regard to the overuse of opioids and resulting accidental deaths. A roundtable discussion took place in Los Lunas, New Mexico. Members of the discussion were provided with a copy of the bill that has already been submitted. The bill would direct the Human Services Department to provide grants for states to enhance their PMP programs, to direct the federal government to begin to use the PMP, and to provide a grant program to promote education regarding the misuse of opioids. Dr. Jenkusky stated that the bill is very well-meaning, however, it will require funding. Ms. Hart stated that New Mexico is already doing most of what is in the bill, and that funding would be great for promoting the education and enhancing the PMP.

12. OVERVIEW OF FEDERAL DRUG LAWS—CONTROLLED SUBSTANCE ACT—DEA PRESENTATION Lorena Rodriguez, Diversion Investigator for the Drug Enforcement Administration presented the Board with an overview of the Federal Drug Laws and the Controlled Substance Act. Ms. Rodriguez discussed accountability for distribution of controlled substances, and who is required to have a DEA Registration. She further discussed drug diversion and the DEA's goals. The Board then had a long discussion with Ms. Rodriguez regarding various laws and to issues. Specifically, Dr. Jenkusky asked if a patient can acquire a prescription and maintain it at a physician's office for the physician to dispense under observation. Ms. Rodriguez stated that it would be illegal as the physician would be in possession of a controlled substance not prescribed to that physician. The correct legal process would be to order the medication and maintain it within the physician's stock, maintaining record and inventory of it, and then dispense it just as a pharmacy would.

Ms. Rodriguez provided Board members with informational material for them to distribute to their patients and/or keep in their offices. The Board thanked Ms. Rodriguez for attending.
