Psychology Board, Merranda Romero Marin, PH.D, Dr. Leslie Dozzo, and Dr. Mayfield

Dr. Carson started with an explanation as to why NMMB requested the Board of Psychology to join the meeting. In Dr. Carson's statement she noted that the Board wanted to make sure that NMMB is in accordance with the statutes of Senate Bill 127 and referenced page 13 of the bill

with information. Dr. Carson then opened the forum for PA Johnson and Dr. Scoggins to add additional information pertaining to this committee and Senate Bill 127. PA Johnson raised a question to the Psychology Board regarding the progress on joining the two committees from each Board together. Dr. Mayfield responded to the question stating that the Psychology Board has been working to go over the education requirements for expanded practice. He also stated that the Psychology Board has put together a standardized curriculum in conjunction with the Nursing Program, to give injectable medications for long-acting injections. Dr. Mayfield noted that this would not be video training, it would be a complete hands on in person training program with supervision from a prescriber that is licensed to provide injectable medication. This training would be held on “dummies” to go through all requirements that are put forth within the curriculum to ensure public safety. The training for this program will also entail supervised injections after completion of the curriculum as well. Dr. Mayfield stated that focusing on this curriculum is what has been being worked on during the recent series of committee meetings. PA Johnson followed up with requesting more information on the development of joint meetings between the Psychology Board and NMMB’s committee. Dr. Marin notified the Board that there are representatives that work with the Psychology Board that will be reaching out to NMMB’s committee for scheduling meetings on a quarterly basis. PA noted that NMMB’s biggest concern was making sure that NMMB was in compliance with the statutes of Senate Bill 127. Dr. Mayfield stated that the first training course for this program will be held at the end of February or beginning of March 2025 and noted that he will be encouraging as many people as possible to meet this mandate of providing rural services where it is otherwise unavailable. PA Johnson mentioned the bill within legislation right now pertaining to changing designation to independent provider and Dr. Dozzo spoke on this topic. Dr. Dozzo noted that she was the president of the State Psychologist Association and clarified that within Senate Bill 53 there is information on adding Psychologists to the list of independently licensed supervisors and clinicians based on changes made to Senate Bill 127.

Physician Assistant Society, Stephanie Richmond, PA and New Mexico Association of PA’s Samantha Baca

Dr. Carson requested an update and information on upcoming legislation for scope of practice. PA Richmond stated that since the last Board meeting, she has been working with the Health and Human Services committee to bring forward legislation. PA Richmond specifically noted HB 266 and gave information on what each one of the bills was intended to accomplish, this allowing PA’s the opportunities to practice in other parts of the state of New Mexico and allow for extended access in rural areas of the state. PA Richmond noted that as PA’s there is a sense of collaboration when practicing and are also regulated by NMMB and the institutions that are employers of PAs. HB 267 was then referred to regarding defining an experienced PA to also be able to supervise a new graduate PA and to allow to carry and practice insurance. This would allow PAs to be able to eliminate medical liability and take more ownership of the work that is being done. PA Richmond opened the forum for questions and Dr. Carson noted the recommendation for new graduates to be working with supervisory limits or working in collaboration with other PAs and suggested to amend the current bill to include that language. Dr. Carson also brought up the concern around specialty care due to PA providers changing specialties on occasion. Further conversation was had by Dr. Barrett, PA Johnson and Dr. Carson pertaining to the work that PAs do and the level of supervision that PAs may have while working

in current time. PA Richmond followed up with an explanation on what the qualifications and requirements are for PAs moving into the workforce and further noted what goes into voluntary specialty field certifications. The conversation finalized with possible ideas, suggestions and previous conversations that have been had regarding payment for preceptors and PAs during the collaborative period of practicing.

with the stipulated Order entered on November 4, 2021. The Board further declared that if Dr. Tiernan failed to comply with the Board's commands that the license issued to him would be REVOKED, with that revocation becoming effective on January 1, 2024.

To date, Dr. Tiernan has failed to comply with the Board's orders and recommendations that command he engage with NMHPWP. Dr. Tiernan has indicated that he will not sign a contract with NMHPWP.
